

# Fairheads shines at the IRF Conference

9 September 2011

**Fairheads** stand at the recent IRF conference in Durban won the award for Best Green Stand.

- Because we are serious about education, we decided this year to donate an equivalent amount to what we would have spent on a stand to an educational cause.
- And because we are serious about conserving resources, we built the stand with recycled office material.

The result was astounding!

Giselle Gould, **Fairheads** Business Development Director, took part in a panel discussion at the conference on the practical distribution of death benefits.
